Did you know there is a dedicated group of numismatists who are working to keep government regulation out of your hobby?

The U.S. Government is trying to creep into your hobby.

But there is an enthusiastic group of numismatists who are working hard to protect the hobby and your right of privacy along with it.

This group is none other than your rare coin dealer. Hundreds of dealers have banded together for ICTA — The Industry Council for Tangible Assets.

ICTA has been alive for over nine months now and has worked on a variety of projects from regulatory threats to registration of your thumbprints. Many of the ideas ICTA has fought seemed ridiculous enough to the rare coin dealers, but strange ideas have had an unusual way of becoming law in Washington.

Your rare coin dealer has contributed both his money and his effort to protect the hobby which pro-

vide his living, and provides enjoyment for you. Look for dealers who are members of ICTA and give them your support by making your purchases through him. If your current dealer is not a member, ask him why he doesn't support the hobby — and then tell him to call the ICTA office in Washington and join!

ICTA member-dealers thank you for your support. As a group, they pledge to maintain the fight in Washington to keep the creeping regulations out of numismatics. With your help, these members will continue to support ICTA with both their money and their effort.
